NOTES:

STREET LIGHTING

No.	ISSUE	DATE
1	MASTER DEVELOPMENT PLAN	04-03-08

KEY PLAN NOT FOR CONSTRUCTION

Lighting

The lighting scheme will be as minimal as possible while still providing a safe, comfortable environment. Pole lights and building-mounted fixtures will be traditional in character. The poles will be no more than 12-14' high to preserve a pedestrian scale. The most intense lighting will be concentrated in the Village Center, with street lights placed approximately 40' on center and periodically along paths in the Village Green. Secondary streets will have pole lights placed approximately 80' on center, and outlying streets will remain unlit, in keeping with their more rural character.
